## **INDORSE MERITS** OF CREDLIN BILL

Directors of State Division, T. P. A., Discuss Proposed Amendments to Constitution.

### ANNUAL CONVENTION TO-DAY

Lynchburg Decorates in Honor of Visitors, and All Is in Readiness for Meeting.

(Special to The Times-Dispatch.) Lynchburg, Va., May 8 .- The direc-A. at midnight were discussing amendments to the constitution to be before of an informal nature for instructions The board, after some discussion, in-dorsed the merits of the Credlin bill, providing for suffrage for voters away from home, and will recommend it to the convention. A draft of the bill was before the committee, but the bill itself was not indersed, only the prin-

ciples being favored.

All is in readiness for the annual convention of the Virginia division, T. P. A., which will be called to order at 10 o'clock this morning.

and to the leading stores are decorated in the colors of the association, and banners displaying the emblems and colors are posted conspicuously throughout the city, flashing words of welcome to the delegates from a distance. State President E. R. Barksdale, of Portsmouth, and Secretary Harwood, of Richmond, are both here, and a large delegation, possibly form large delegation, possibly fifty, from Post A. Richmond, which has more han 1,000 members, left Richmond this afternoon in a special car for the Hill City and arrived here early this evening. The capital city post will have the largest representation of any city in the State except Lynchburg.

meeting of Directors.

To-night at 9 o'clock the meeting of the State board of directors was held at the Virginian Hotel, and to-morrow morning the first business session of the convention proper opens.

To-night was "politicating" night, when trades and bargains were made between those booming their cities for the next convention, or friends for minor office, and those backing the two leading candidates for president. W. H. Jones, of Danville, and R. D. Davis, of Norfolk, are the two contenders for the presidency, while Norfolk is the most likely candidate for the next convention.

The

are convention will be an important one for the reason that it comes so close upon the date of the national meeting of the Travelers' Protective Association, which will be held in Richmond during the week of June 9, and

Association, which will be held in Richmond during the week of June 9, and in attendance upon which will be hundreds of delegates from all sections of the United States and Canada.

One of the most important matters which will come up will be what many traveling men consider the opening wedge to secure for them the right to vote in elections when they are unable to go home and cast the ballot. W. B. Cridlin, of Richmand, who is a member of the board of directors of Post A. has drawn up a bill which is known as the Cridlin or traveling suffrage bill, and this will be offered by H. C. Featherston, chairman of the legislative committee of the association.

Under the existing laws, the traveling man has to return home to vote, and this causes not a little inconvenience to him, to say nothing of the additional expense incurred in traveling over the railroads and the time consumed in being away from

over the railroads and the vogue entitling citizens to vote other precincts. The defect in this will is stated, is that when the vote mailed it often does not reach the

NE day, when Mr. Jones returned with what his weekly toil had earned, he found his little wife in tears and mood not suited to her years. It seemed the cook had bade "adieu," likewise the washerwoman, too.

Gold Dust as Strike Breaker

At first within the House of Jones there followed sad despondent moans. No hopeful word could reconcile, no honied kiss inspire a smile. "I never knew before" said she, "how horrid household cares could be."

"Upon my word I'm up at six and working still as midnight ticks. I scrub and run and wash and shine to keep the little things in line. and yet around me here and there I see undone another share. I

almost feel as if I'd like to join the other ones on Strike. Some morning try it-get a mop; go through from cellar to the top, and I will venture you must see, the greater burdens fall on me."

Now Mr. Jones was passing wise and later, sprang a glad surprise. Through friends who praised the "GOLD DUST WAY," he brought a package home one day.

# All Play and No Work Makes Jack a Crook

"Ail work and no play makes Jack a dull boy; all play and no work makes Jack a crook."

With this statement of his belief C. Seymour Bullock, who took part in yesterday's program at the Recreation Congress, summed up the "Garden City" project which is one of the phases of the playground movement in New London, Conn., where he is unique and may be adapted to the needs of almost any city. Mr. Bullock described it yesterday to a reporter for The Times-Dispatch.

For the "Garden City" a vacant lot is borrowed or leased, and on its garden plots ten by eighteen feet are laid out for the boys who will work them. A juvenile city with a commission form of government is established, the boys electing a council, which selects a mayor and commissioners to carry on the different departments.

There is a street commissioner, whose business it is to lay out the streets and care for them; a park commissioner, who locates the community garden, and passes upon the individual garden plots before any seed is distributed for planting; a water commissioner, who arranges for the proper watering of the gardens by the owners, and a tool commissioner, who has charges of the rakes, hoes, shovels, sprinkling cans and wheelbarrow, A chief of police is appointed by the mayor and his council.
